ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land = OFF-Reservation Trust Land; Home Land = Home Land; OTSA = Oklahoma Tribal Statistical Area; TDSA = Tribal Designated Statistical Area; ANVSA = Alaska Native Village Statistical Area; SDISA = State Designated American Indian Statistical Area; ANR = Alaska Native Regional Corporation; CDP = Census Designated Place; Minor Civil Div. (MCD) = Minor Civil Division; CCD = Census County Division

<b>FEATURES</b>	
Highway	River/Power Line
Secondary Road	Ridge/Physical Feature
Inter/Intrastate/County	Property/Zoning Line
Highway	Nonvisible Boundary
Interstate/County	Stream/Shortline
Interstate/County	Intermittent Stream
Interstate/County	River / Lake
Interstate/County	Glacier

Insert

Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary for only the highest-ranking of these boundaries.

<sup>1</sup> A "C" following a place name indicates that the place is coextensive with a MCD. A "D" indicates that the place is also a false MCD; the false MCD name is not shown.

<sup>2</sup> A "B" following a block number indicates that the block number is repeated elsewhere in the block.

The diagram illustrates the mapping of a place name to a place concept. It is divided into two main sections: a top section for 'FEATURES' and a bottom section for 'CONCEPTS'. The 'FEATURES' section includes 'Highway', 'Secondary Road', 'Pipe/Power Line', and 'Ridge/Physical Feature'. The 'CONCEPTS' section includes 'Stream/shoaling', 'Intermittent Stream', 'River / Lake', and 'Glacier'. The bottom right section shows a 'Inset' box and an 'Out Area' box. The diagram uses various symbols and lines to represent these features and concepts, such as dashed lines for boundaries and solid lines for features.

**FEATURES**

Highway  
Secondary Road  
Pipe/Power Line  
Ridge/Physical Feature

**CONCEPTS**

Stream/shoaling  
Intermittent Stream  
River / Lake  
Glacier

**Inset**  
**Out Area**

Where international, state, and/or county boundaries coincided, the map shows the boundary symbol for only the highest-ranking of these boundaries.

1. A <sup>1</sup> following a place name indicates that the place is **expressive** in a MCD.

2. A <sup>2</sup> following the place name also = false MCD, the false MCD name

3. A <sup>3</sup> following a block number indicates that the block number is repeated elsewhere in the block.

Figure 1 consists of two parts. On the left is a 3x3 grid of squares. The center square is white and labeled 'A01'. The eight surrounding squares are gray. On the right is a separate diagram showing an irregular, jagged shape. A point labeled 'A' is marked on the right side of this shape.
